Feel the precise printer solution from the **SMART-50 Series**

COLOR MONO UV

Single sided ID CARD PRINTER

SMART-**50S**

Ideal solution to print any kind of single-side ID cards!

SMART-50S printer produces full-color or monochrome cards in moment and it is ideal solution to print ID cards on demand or in volume.

SMART-50S offers a wide range of optional features including magnetic encoder, contatc and contactless smart card encoders making it ideal for many applications in a variety of environments.

Requires single-sided printing of ID cards:

- Employee ID card
- Student ID
- Payment card
- Health card
- Leisure resort pass card
- Identification card
- Transport pass card
- Loyalty card
- Event card

FEATURES

- Color & Mono Single Side Printing
- Print Speed: 18 sec./card (YMCKO)
- 300dpi with Edge-to-Edge Printing
- 2 Lines LCD with 2 LED Buttons for Front Operation
- Advanced Cleaning Roller
- Low Cost Security with UV Printing
- Installable Encoders: MS, Contact & Contactless, SIM
- Upgradable Modules: Flipper, Laminator & Ethernet

ISSUANCE

SMART Applications ensure proper card issuance and data management with SMART series printers at no extra cost.

SMART Design
- Design and Print (Images, Photos, Texts, etc.)
- 1D & 2D Barcode printing
- Auto portrait
  (Auto face detection & adjustment of size & position)

SMART DB
- Convenient issuance of cards and data management
- Supports ODBC (Open Database Connectivity)
- Magnetic stripe (MS), contact & contactless smart card encoding by using plug-in program

SECURITY

SMART series provides effective security features for access control and data encryption.

SMART series has a password verification function to provide administrator and user authentications.

SMART series can set a specific authorized PC for encoding and printing cards.

SMART series can encrypt data transmitted on USB and can support SSL (Secure Socket Layer) protocol on ethernet communications.

NETWORKING

SMART series can utilize the network printer server for encoding and printing cards.

SMART Ethernet module can not only print cards but also encode MS, contact and contactless smart card through the network.

SMART Ethernet module has OCP(Open Card Print)protocol which can encode and print cards by using commands on multiple platforms without installing the printer driver.

Available encoding the contact & contactless smart card by Ethernet.

Single sided ID CARD PRINTER

Specifications

PRINTING

• Print Type	Dye-Sublimation
• Print Area	Edge to Edge
• Resolution	300dpi
• Dual Sided Printing	Option (with Flipper)

CARD

• Card Feeding	Automatic
• Card Size	ISO CR80 (54mm x 86mm / 2.12" x 3.38")
• Card Thickness	0.38mm (15mil), 1.0mm (40mil)
• Card Type	PVC, PET, Composite PVC

PRINT SPEED

• Monochrome	5 sec./card (720 cards/hour)
• YMCKO	Max. 18 sec./card (220 cards/hour)

CAPACITY

• Input Hopper	100 cards
• Output Hopper	40 cards

SYSTEM

• Memory	64MB RAM
• Display	2 Line LCD
• Control Panel	2 LED Buttons
• Supported Platforms	Microsoft Windows 2000/ 2003/ XP/ Vista/ 7/ 8/, Mac OS, Linux
• Communication	USB, Ethernet (Option)
• Power Supply	Free Voltage (AC100/ 200V, 50~60Hz)
• Power Consumption	48
• Temperature/Humidity	15~35℃ / 35~70%

DIMENSIONS

• Millimeter (WxLxH)	170 x 420 x 195
• Inch (WxLxH)	6.7 x 16.5 x 7.7

WEIGHT

• Kg/lbs	4.5 / 10

ENCODING OPTIONS

• Magnetic	ISO7811 (Track I, II, III Read/ Write, HiCo/ LoCo), JIS II
• Contact	ISO 7816 (ID-1)
• Contactless	MIFARE, ISO 14443 (Type A/ B), ISO 15693, DESFIRE, iCLASS

Specifications and availability may change without notice.

smart Series manufactured by IDP Corporation, is a highly engineered dye-sublimation ID Card printer which provides you with maximum efficiency for production of plastic cards in commercial and government applications.

SMART series is designed to support a flexible user environment, which makes it easy to choose the correct printer and save money. You can easily add a flipper or laminator, for dual sided printing or laminating, and various encoders such as magnetic stripe, contact and contactless. The enhanced FINE™ Imaging Technology of the SMART series enables you to print high quality images. The SMART series will be a perfect choice for ID, Membership, Access control, Government ID, Healthcare and Banking cards.

IDP Corporation has begun a new era in ID Card printers.
Please come and experience the flexibility and quality of the SMART series.
